The **UNIQUE DBM** Tells'em *All* Where To Go!...

The **UNIQUE DBM**
 Midi Master Keyboard
 can control any Midi
 Keyboard / Expander Set-Up.

- 72 note weighted keyboard
- 64 programmable patches
- Up to 3 totally independent Midi channels are programmable for each patch
- 3 programmable splits with overlap capability
- Programmable aftertouch can be assigned to affect pitch or modulation regardless of synth/expander ability to read aftertouch.
- Programmable velocity and transpose
- 2 independent assignable Midi outs for minimal time delay
- PLUS . . . A 4,000 NOTE 4-TRACK MIDI SEQUENCER WITH FULL-BLOWN FEATURES IS BUILT-IN!**
- All this at a very reasonable price.

UNIQUE also offers the **DBM** Keyboard and the **DBE** Expander featuring **DIGI-LOG** technology.

Plus the **Solo** PROGRAMMER 24S "One Man Band" and the **Solo** MDR-16 Multi-track sequencer.

Also Unique Keyboard stands in 1, 2 and 3 Tier.
