Meet the future of the electronic piano!**

The Crumar Roady

The Crumar Roady is destined to become the electronic piano of the 80's. Five full octaves of pianos, vibes and a punchy bass offer musical versatility like:

- Mellow vibes, with variable tremolo depth and rate.
- Percussion that can duplicate a mallet vibe sound, produce the accentuation of popular electronic pianos (those classic, bell-like tones), or add that jazz bite of percussive solos.
- 3 distinctive piano sounds that can be mixed in any combination, and played on either the left, right or across the entire keyboard. And, there's nothing mechanical to break or go out of tune.
- Bass, with additional sustain that can be coupled with the vibes.
- Blending all of the Roady's unique sounds for a super musical mix, piano voices on top of vibes, etc.

The Roady has three output channels, so you can separate each of the sounds. What's more, the Roady's 30 lb. weight enhances the Crumar reputation for maximum portability.
