

SAMPLE A SAMPLER™

AKAI ... LEADS THE WORLD IN SAMPLER™ TECHNOLOGY!

AKAI's Engineering Team was quick to recognize sampling would be the future direction of synthesized sound ... The new AKAI S-612 Sampler™ easily enables the player to **exactly** duplicate any digital, analog or environmental sound in a mere 8 seconds!!! AKAI Sampler™ obsoletes the days of lengthy synth programming which often ended in total frustration or failure!

We have prepared a cassette tape demonstrating the wide variety of sounds available with the AKAI S-612 Sampler™ using just one of many AKAI sound libraries.

WITH GUITAR ...

Using the recently developed Guitar-to-Midi device like the Charvel GTM6, the guitar player can couple guitars to the Midi Buss of the AKAI Sampler™ and start creating an entirely new unlimited spectrum of sounds.

WITH KEYBOARD ...

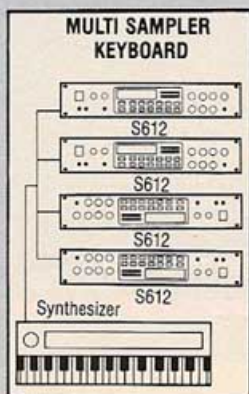

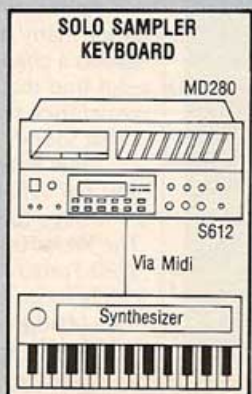

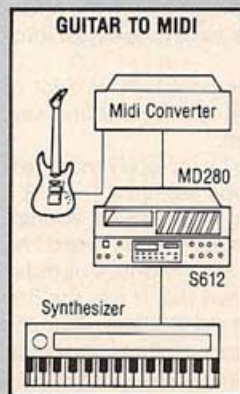

The Sampling Technology developed by AKAI has unleashed the creativity of every keyboard player around the world ... with one or more AKAI S-612 Samplers™ the player can duplicate any patch from a \$25,000.00 Fairlight to the cry of a lion at the Bronx Zoo! The world is truly at your fingertips with an AKAI S-612 Sampler™ and MD-280.
