

ARP's September Synthesizer Sale.

This month only, your local ARP dealer* will make you an unbelievable deal on a new ARP AXXE.

For one month, ARP dealers will be getting our newest synthesizer — the AXXE — at super-low factory prices. And they'll be passing the savings on to you.

The AXXE has it all. Full 3 octave keyboard with an incredible 9 octave range. ARP's fat-sounding filter. Sample & Hold, pulse width modulation, and four parameter envelope generator.

The AXXE includes ARP's "Systems Interfacing" jacks. Expand your AXXE up to a fully polyphonic system with the addition of an ARP String Ensemble. Add the sounds of ARP's Little Brother.

Or play other instruments through the AXXE's sound-modifying circuitry.

ARP Instruments, Inc., 320 Needham Street
Newton, Mass. 02164 (617) 965-9700

ARP's superior circuit design and human engineering have made ARP the choice of the world's leading musicians, like Pete Townshend, Stevie Wonder, Edgar Winter, Herbie Hancock, and countless others.

So why not get *your* AXXE together. Get down to your nearest ARP dealer during ARP's Great September Synthesizer Sale.
