

# NOW YOU DON'T HAVE TO BE RICH AND FAMOUS TO OWN AN ARP.

Introducing ARP's new Solus, the world-class synthesizer that gives you the same sound quality, versatility and reliability of the ARP live performance, lead-line synthesizers, at a price almost anyone can afford.

**SOLUS:**  
**THE FEATURES**  
**YOU'D EXPECT FROM**  
**ARP, AT A PRICE YOU**  
**WOULDN'T.**

**SOUND** When you buy a synthesizer, sound quality is the key. The Solus has two oscillators so you get the fat, electronic lead-line sound you want. Their mixable sawtooth and pulse wave outputs can be phase-synced to produce a wide range of classic electronic sounds. And the four-pole filter can be modulated with inverted ADSR for special effects. **CONTROL** The Solus has a complete four-function envelope generator so you get total control over articulation. Attack, decay, sustain and release. That's one more articulation feature than you get with many

synthesizers. And a lot more control. **RANGE** Unlike many comparably-priced synthesizers, the Solus has a full three-octave keyboard. And the keyboard can be transposed up or down an octave — quickly during live performance — for even greater range.

**EXTRAS** In addition, the Solus gives you a number of extra features you wouldn't expect from a synthesizer of its price. You can control vibrato, adjust pitch sharp or flat, and add portamento slurs to your music, just to mention a few. Why, the Solus even comes in its own traveling case!

**PRICE** With the cost somewhere down around \$16 a key, Solus is the ARP synthesizer you can afford even if your fame extends only next door. It gives you a lot of sound for the money. And the quality you'd expect from an ARP.

You can play the ARP Solus at selected ARP Dealers throughout the United States and Canada.
