

If you've got your eyes on the charts, get your hands on a CZ-5000.

For a serious musician, switching to a Casio CZ-5000 could be all it takes to launch a serious career.

The CZ-5000, obviously, is no ordinary synthesizer. It's a full-size polyphonic keyboard that gives you the best of two worlds: the ease of programming and rich sound of an analog synthesizer, along with the clarity, compactness and data processing speed of a digital.

And that's only the beginning. This lightweight piece houses a powerhouse of features, including a programmable

key split, tone layering, a modulation wheel and an optional sustain pedal. It also has 64 on-board sounds created by Casio's unique dual line of sound generators and shaped by six 8-stage envelope generators.

What's more, the CZ-5000's 8-track sequencer gives you, in effect, a multi-track recording studio wherever you go—allowing you to enter up to 6,800 notes manually, or 3,400 notes in real time. These you can edit, mix, then store on standard cassettes for easy access.

If all this isn't enough, the sequencer will also drive other MIDI keyboards—like our CZ-101 and CZ-1000. And when it's set to receive MIDI, its 8 channel multi-timbral capabilities make it probably the most versatile of any keyboard in its class.

Wherever your career is now, a Casio CZ-5000 could be just what you need to launch it onto the charts.
