

Casio's in tune with today's musicians. Whether they can read music,

PT-20

PT-30

MT-45

MT-65

CT-405

CT-7000

or not.

CT-501

MT-70

Drumming up business is easy—when you've got the right instruments. And Casio gives you keyboards to beat the band. All at prices that beat the competition.

Even our smallest pocket-size model, the PT-20 has crisp digital sound, 7 voices, 17 rhythms and an elephant-size memory that stores up to 508 steps. The slightly larger PT-30 has the same memory, but offers additional voices, rhythms and an ability to store melodies in a separate cassette recorder.

Our MT-45 and MT-65 have 49 note, 4 octave keyboards. And while both feature extraordinary clarity and authenticity of tone, the MT-65 gives greater versatility, with 768 rhythm variations to accompany its 80 instrument sounds.

Our full-size Casiotones offer heavyweight sound in a lightweight package. The CT-405 includes a 13 step transposer, which allows it to be played in one key while the music comes out in another. And our top-of-the-line Casiotone 7000 is also, incredibly, a 4 track, 8-note poly-

phonic mixing and recording studio with digital panning stereo control and a 1,855 step memory. And it will, at the touch of a button, demonstrate its astounding capabilities.

No less astounding are our Casiotone 501 and MT-70. They are sophisticated enough for accomplished musicians. Yet with their miracle scanner, they can read bar-coded music (from Casio's library of 300 compositions) and play it back—automatically, or through the Melody Guide, which guides beginning fingers across the keyboards with flashing lights.

Casio offers an electronic keyboard for every size wallet as well as talent, each built with that famous Casio attention to quality. If you want today's musicians—and tomorrow's—beating a path to your door, you owe it to yourself to carry the line that's in tune with the times.
Casio. **Where miracles never cease**
