

DX OWNERS . . . YOU'VE GOT THE BEST SYNTH, WHEN YOU HAVE THE BEST SOUNDS!

Introducing the Key Clique ROM Cartridge Library. The highest quality sounds for your DX-7!

You can now have a ROM Cartridge for every style of music you need. The only 64 voice ROM cartridge programmed to deliver over 180 original sounds.

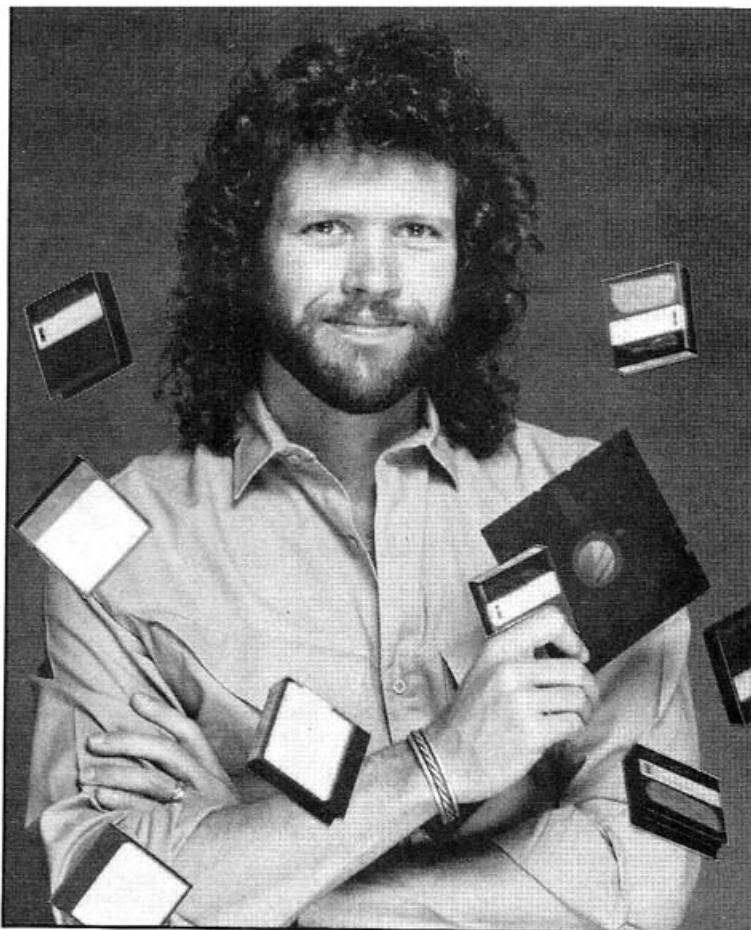

Each Key Clique ROM with performance guide booklet features 64 multiple voice programs and the support information for getting the most out of your DX-7 and Midi keyboard set-up.

BO TOMLYN'S programming "Clique Tricks®" and scientific approach to detuning equips your DX-7 with harmonic textures not indicative of FM and inboard effects such as: *chorusing, flanging, panning, Leslie®*, *delay, echo, reverb, filter sweeps, arpeggiation, superior dynamic range, new pedal and breath control capabilities and useful two and three-way splits with independent control of right and left hands.*

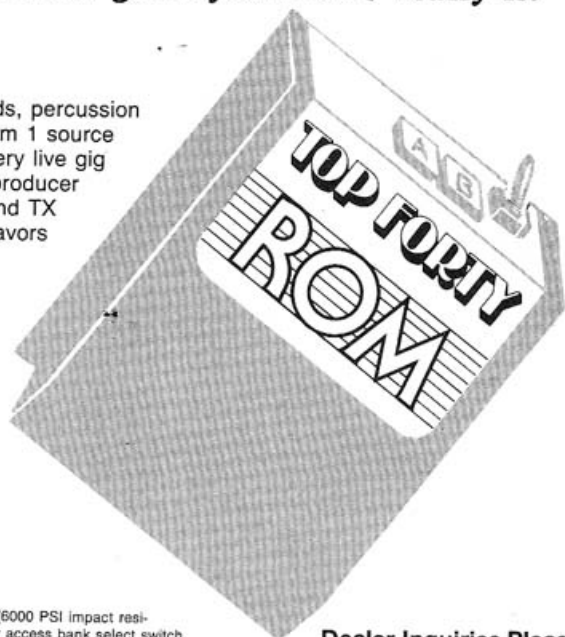

Don't waste time and money with amateurs! Hear the Amazing Key Clique ROMs at your local music store — and discover how great your DX-7 really is!

The Key Clique ROM Library: (64 multiple voice programs in each cartridge)
