

So you say quality is a thing of the past, right?
Wrong!

For More Information About the Equipment Above Circle Letter Below:

- A** Marshall's new solid-state guitar and bass amps. Features master volume, effects send, and that great Marshall sound.
- B** Travis Bean guitars and basses. The first innovation in electric guitar design in 20 years. Just ask Jerry Garcia!
- C** Steinberg-Parker's Synthesizer! Features 3-oscillators and over 35 billion sound combinations. The Performer's Synthesizer!
- D** Technicon mixers and equalizers for P.A., recording, and keyboards. The clean machines by Technical Audio Products Corporation.
- E** Moog's special effects for the studio and the performing musician. Phasers, Singers, compressors, graphics, and more.
- F** Greatah drama! Features 3-ply maple shells, lifetime guarantee, and a hi-glass topcap (look you won't believe!)
- G** Adson's New 890 16-channel stereo mixing console. Features three 3-band graphics with 100 bot Snake and Avril Cases.
- H** Wynton's full line of P.A. and monitor systems, guitar and bass amps. Dependable, rugged, and warranted for life.
- I** Choice cases for guitars and basses. Finally a flight case that doesn't weigh as much as you do.
- J** The Spectrum Patch Machine and Studio Phase. Also, coming soon, the Two-Track Delay.
- K** Madson P.A. snakes and reels - 6 to 24 inputs or custom built to your specifications. Snake by Whitwind Products.
