MONOMACHINE SFX-6 KEYBOARD MODEL

SFX-6

INTRODUCTION

MONO EXTRAVAGANCE Monomachine SFX-6/60 is a multiple synthesis keyboard synthesizer and advanced pattern based sequencer. It offers six tracks of unique synthetic sounds and effects with unrivaled control. Monomachine is the state of the art synthesizer, designed by nordic craftsmen with pioneering musicians in mind.

MULTIPLE SYNTHESIS The Monomachine is more than an analogue imitator. The synthesis for each track can individually be chosen from a wide set of synthesis machines.

The Monosynths are inspired from synthesizers of all times, and extending into new territories. The sound spectre is wide, but direct intuitive controls unite.

MAN AND MACHINE The Monomachine features the worlds most advance and intuitive step sequencer for pattern based music creation. Extending from the traditional note-on/note-off sequencing, the Monomachine offers immediate control over all sound synthesis and effects parameters at any pattern step.

5 X MONOMACHINE SYNTHS

SuperWave

SUPERWAVE - TAKE IT BACK WITH ANALOGUE SAW, PULSE AND POLYPHONIC ENSEMBLE.

SID

SID - THE SID-SYNTH IS BASED ON THE LEGENDARY MOS6581 SID CHIP FROM THE COMMODORE 64.
