

**LIKE MOST MUSICIANS**

**YOU'RE A REBELLIOUS,**

**POWER MAD,**

**CONTROL FREAK.**

WE CAN GO ALONG WITH THAT.

If you're the kind of musician who's looking for more performance power and more artistic control, listen up. The new Proteus Master Performance System from E-mu features more impeccable sounds (of the kind we're famous for). More MIDI control. More professional quality digital effects. And more of the ease of use you expect from us. It all happens when the soul of a Proteus is seamlessly melded to the body of a velocity and pressure-sensitive keyboard. To find out more, just turn the page.
