Hohner Keyboards are known for making golden sounds. In jazz, rock and disco. Next time you hear a gold record or one about to become gold, listen up. Chances are you'll hear a Hohner Keyboard.

Yet, as rich as a Hohner looks and sounds, you don't need a gold mine to afford one. Because they're the affordable portables. So play a Hohner. And maybe you too will get the Midas touch.

**WHEN YOU'RE LOOKING FOR THAT BIG BREAK,
HOHNER CAN BE INSTRUMENTAL.**

configuration of

INTRODUCING THE STRINGER.

A complete string section without strings.

Now play your own string section with the new Stringer by Hohner.

You'll be able to add on the sounds of violins, Violas, Cellos. Or a full ensemble. Just by playing the four-foot-octave keyboard.

The lightweight, compact Stringer features solid state circuitry. Plus pre-set voicings with variable decay and volume. So you can achieve a complete range of lush string effects.

The Stringer comes with a handsome wood grain vinyl covering, volume control pedal and a carry-all pouch. Not to mention the solid wood lid cover and sturdy music rack. What's more, it's very portable and stackable.

Visit your music store today and try it out for yourself. No strings attached.

Also try your hands at a Heber Clavinet®. Stringvox International Piano II. Or Jazz/Rock Organ.

You can believe you'll love playing Hohner's new Stringer. Or any one of our fine instruments. Because after 120 years in the business, we wouldn't string you along.
