

If you play guitar...

that's not all you can play.

YOU CAN GET OVER 2000 NEW SOUNDS WITH YOUR GUITAR USING THE NEW KORG X-911 GUITAR SYNTHESIZER

Imagine creating today's incredible synthesizer effects with your guitar. Or turning your guitar into a totally different instrument (for example, a flute, fuzz guitar, electric bass, violin, tuba or trumpet.)

The X-911 Guitar Synthesizer is designed specifically as a *performance* instrument—to enhance, not interfere with your playing style. Just plug in your guitar, (no special pick-ups or drilling required) and with the touch of a button, you can select from a wide range of separately adjustable instrument and synthesizer sounds, or *mix* them together *instantly*.

Even if you thought you could make a guitar do "anything"—with the X-911, you can make it do a whole lot more!
