

## The new Korg Trident 8-voice, programmable, polyphonic synthesizer packs this much potential music into this much practical instrument.

You're looking at a major step forward in keyboard evolution...the Korg Trident. Not only does it put the enormous sound potential of an 8-voice programmable polyphonic synthesizer with separate string and brass sections at your command, but it also allows you to create, at a fingers touch, stunning layers of sound by playing all three sections together.

### First, meet each of the performers.

Trident's *Programmable Synthesizer Section* features dual VCOs, new 24 dB/octave VCF, and full ADSR for each voice, and allows you to store 16 different programmed sounds...and retrieve them instantly. From delicate flutes to fat synthesizer sounds to spacey effects, with additional presets for piano, electric piano and "Clav" sounds.

Trident's lush-sounding *String Section* features three mixable octaves, plus individual note attack and release, for the most natural string articulation. You also get such important advances as a selectable "bowing" effect, tracking filters, Solo Ensemble selection and special time-based modulation effects.

Trident's fully variable *Brass Section* delivers the entire range of horn instruments, plus many other synthesizer voices. It comes equipped with two mixable octaves, 24 dB/octave VCF, full

A four-way joystick for one finger control of pitchbend, vibrato, and trill effects. Or, use variable delayed vibrato effect for hands-off control.

Extensive voltage control inputs for easy external control over all performing levels.

A built-in flanger, assignable to any section.

Keyboard split can assign any section to upper, lower or both ends.

16 different polyphonic synthesizer programs.

Solo Release allows automatic damping of previously played notes, for lead line capabilities.

A String Effects Section with controls for bowing, vibrato and ensemble effects.

ADSR, and a unique feature that actually counts the number of notes held before playing.

### Play Synthe, Strings, and Brass simultaneously.

Here's the big plus! Thanks to Trident's unique layering capabilities, you are able to play as many as three voices at once on each key, in stereo or mono. It's like having a 24-voice synthesizer at your command!

The Korg Trident. The ultimate performance machine for even the most demanding keyboardist.

Put it to your own musical test at the Korg dealer nearest you. You just might leave with a whole orchestra at your fingertips.
