

**"If someone developed a low-cost, computerized Monophonic Synthesizer with the fattest sounds around and polyphonic capabilities too, they'd really have a monopoly."**

Introducing Korg's

# Mono/Poly

It's the monophonic that has leapedfrogged the competition with features like:

**4 VCOs** (Each with separate Octave, Waveform and Level Controls)—for fat 4-oscillator

soloing sounds, as well as 4-note polyphonic capabilities.

**3 Keyboard Assign Modes**—Microcomputer controlled keyboard provides effortless

shifting between unison and polyphonic playing... or a combination of the two. Also includes Hold and Chord Memory functions.

**Full Featured Arpeggiator**—Automatically creates sequences of notes in one of 3 patterns, at any speed,

covering 1 or 2 octaves or the full keyboard. Latch mode instantly memorizes and continuously arpeggiates chords as they are played.

**"One-Touch" Presettable Effects Section with Sync and Cross-Mod**—Activate, via single pushbutton, 2 different modes of Sync or X-Mod, or

a combination, for the most dynamic sounds. **Exclusive with Mono/Poly!**

When you add to all this Polyphonic Portamento, assignable Pitchbend and Mod Wheels, a full 44-note Keyboard plus extensive Interfacing capabilities you'll see why the features, sound, ease of operation and price of the new Mono/Poly truly make it "the only game in town." Play it at your Korg dealer today. For name of nearest Korg dealer call toll-free: (800) 645-3188.

In N.Y. (516) 333-9100.

# KORG

... we put it all together

Exclusively distributed by Unicord,  
Westbury, N.Y. 11590

They told us if we made  
a 6-voice Programmable  
Polyphonic Synthesizer  
with outrageous sounds  
for under \$2,000  
no one would believe it.

Introducing Korg's new

# Polysix

A synthesizer  
you can believe in!

The new Polysix is, admittedly, very low priced. But it's also incredibly high featured, with fat sounds and advanced programming functions. At half the cost of comparable synthesizers.

**Six-Voice Polyphonic and Unison Playing Modes**—Select either full 6-voice polyphonic or incredibly fat 6-voice soloing playing modes via LED pushbutton switching. Also includes Hold and Chord Memory functions which can create exciting parallel harmonies.

**32 Program Memory with Edit**—All synthesizer control settings can be stored

in computer memory for instant recall of up to 32 different programmed sounds. Full edit capability allows instant temporary or permanent changes to any program during performance and moving of programs from one location to another.

**8-Second Cassette Interface with Verify**—Allows stored programs to be rapidly transferred to any tape recorder to form an unlimited number of instantly

retrievable program libraries. Verify mode ensures accurate recording.

**Full Featured Arpeggiator**—Creates exciting note sequences in one of 3 patterns, at any speed, covering 1 or 2 octaves or the entire keyboard by simply playing chords. Latch mode memorizes successive chord patterns for automatic hands-off playing.

**Programmable Chorus/Phase/Ensemble Effects**—Creates everything from subtle ambiance to spectacular orchestral effects.

Then consider this full 5-octave keyboard weighs only 26 lbs, includes Pitch and Mod Wheels, Pulse Width Modulation, Sub Octaves and a host of other features all for under \$2,000. It's enough to make a believer out of anyone. Call toll-free today for the name of the Korg dealer nearest you. (800) 645-3188. In N.Y. (516) 333-9100.
