

# It's easy to pick up

## a Multivox MX-65.

**A dream machine...piano, brass, honky-tonk piano, organ, strings and clavichord...at an incredibly low price.**

Introducing the new Multivox MX-65, a new six-voice polyphonic keyboard that costs less than you dreamed, weighs just 16 pounds. And delivers tons of sophisticated keyboard sound.

The MX-65 gives you six voices: piano, strings, brass, clavichord, honky-tonk piano and organ.

That means more versatility and new dimensions for your music right from the start. With a little creative use of the MX-65's modifiers...for volume, pitch, filters, envelope generator (3 shapes) and ensemble (3 modes including unison effects)...you literally

have infinite sound possibilities right at your fingertips. And interfaced with virtually any other synthesizer, the MX-65 produces the lush, multi-layered textured sound so dramatic as background fill.

The six-voice MX-65 polyphonic keyboard, unlimited sound on a limited budget. Try one at your Multivox music dealer today.
