\$995.00

The Oberheim Matrix-6R's warm sound is the perfect addition to any system. All the features of the Matrix-6 are now available in a rack-mount package which can add six Oberheim voices to your present system to give you the best of both worlds. Enhance your DX7* or any digital equipment with the flexibility of Matrix Modulation™ and the Oberheim Sound. Add to your sampled library with sounds that can only be created with Matrix Modulation. This professional sound manipulation technology allows five times more control than any other type of sound synthesis.

With superior MIDI capabilities, including MIDI Echo and Patch Mapping, the Matrix-6R adapts easily to your system. And complete MIDI Mono Mode allows unrivaled ease of use with any guitar controller. No matter what your current set-up is, the Matrix-6R can add the famous Oberheim Sound and Matrix Modulation to open up new realms of sonic flexibility. Check it out up close. . .
