

THIS MONKEY WILL BLOW YOUR DOORS OFF.

In the European tradition of fine craftsmanship, reliability and innovation, PPG introduces the Music Computer System. This component system has more power, more flexibility and more possibilities than you ever dreamed were available in a synthesizer.

The Wave 2.3, PRK, Wave-term and EVU offer Sampled Sounds, Digital Sounds and Natural Sounds; Analog Filtering and Envelope Generators; each

voice Individually Programmable; 24-Track Sequencing with Individual Outputs; Weighted Velocity-Sensitive Piano Keyboard; and 12-Bit Audio Output. If you haven't heard a PPG, you don't know what digital sound really is!

For more information on the PPG System, write or call:
