

The New Wave

PPG Introduces New Products for 1984:

The Wave 2.3 with eight individual sound memories and separate outputs, expanded sequencer functions, and 12-bit sound fidelity.

The PRK (Processor Keyboard) with six-octave weighted wooden, velocity sensitive keyboard.

The EVU (Expansion Voice Unit) with eight individual twelve-bit sound memories and eight additional sequencer tracks, allows multi-sampling and multi-instrumentation.
