

# Rod Argent's Keyboards

We are the sole U.K. distributor of all Sequential Circuits products, and are pleased to announce the introduction of the new Prophet 5 and Prophet 10 polyphonic synthesizers.

Additional features to what is already the world's premier keyboard instrument, the Prophet 5, include cassette interface for storage of recorded sounds to enable the user to build libraries of programs. The Prophet can now be programmed with different tuning scales (pythagorean, mean tone, just intonation, etc.) for even more realistic imitative sounds and "beat-free" multi-tracking with other instruments. Also included is a crystal referenced oscillator (accurate to 0.1 HZ) for tuning purposes and complete edit facilities for instant modification of sounds. The Prophet now comes with low-note priority single-triggering in unison mode (just like a minimoog!), and completely re-designed circuitry for improved roadworthiness and faster servicing.

These new features, together with those that have made the

Prophet 5 the synthesizer chosen by nearly every major keyboard player in the industry, make this instrument unsurpassable in every respect.

Now from Sequential Circuits comes the Prophet 10. Like the Prophet 5 it is completely programmable and polyphonic. It has 10 voices, two manuals (for playing two sounds at one time), a polyphonic sequencer with built in computer cassette, multitrack facilities and, of course, the incredible Prophet sound. For more detailed information or demonstrations contact us at our address given below.

Sequential Circuits Prophet 10	£4,600.00
Sequential Circuits Prophet 5	£2,450.00
Monophonic Sequencer	£550.00
Programmer	£550.00
