

BUYING A DK-80 CAN GET YOU THE RIGHT CONNECTIONS.

FREE SOFTWARE AND COMPUTER INTERFACE.
WITH DK-80 PURCHASES BETWEEN JUNE 15 AND AUG. 31, 1986

These days, buying the right keyboard is often only the first step toward the complete system. Technology has taught us that there are no limitations. The total package is the link between our imagination and the freedom of expression through computers.

Siel already offers the right keyboard for that expression, the DK-80. And now, we'd like to offer the software and interface to complete that link for FREE!

Buy a DK-80 (Retail \$995) between June 15 and August 31, 1986 from any authorized Siel dealer and

receive, free, our MCI MIDI Computer Interface and GE-D80 Graphics Editor, together over a \$135 value. The MCI connects the DK-80 to the Commodore CMB 64/Sk 64 Computers and the GE-D80 visually displays all programming for unlimited musical expression.

To get your free MCI and GE-D80, send a copy of your sales receipt to: Free Connections, c/o Siel Keyboards, 3000 Marcus Ave., Suite 2W7, Lake Success, New York 11042. Allow 6-8 weeks for delivery.
