

# NOTHING AS POWERFUL FOR \$695!

## MK900

MIDI KEYBOARD

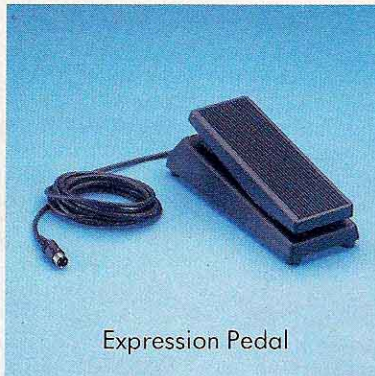

When you hear the double generation of one sound on top of itself, or two different sounds, you'll be totally impressed.

Folding  
Support Stand

There really isn't a more feature-packed instrument for the money, especially with a sonic output that any pro would put right up on stage.

The MK900 is that fat!

Expression Pedal

M.I.D.I./Computer Interface

- Assignable Keyboard Split separates two different sounds or allows up to 16 keys playable with one timbre.
- MIDI In and Out/Computer Compatible
- Built-In Rhythms, or Program your own Pattern!
- Transpose, Stereo Detune, Chorus
- Built-In Speakers

- Built-In Real Time Sequencer, 450 Notes, Battery Backed!
- 10 Presets, each with two sound generations, giving a fat, spacious quality.
- Auto-Accompaniment with Multiple Modes
- Automatic Counter Melodies
- 61 Keys... 9 lbs.
