

# TUNE-IN & TURN-ON

## THE VOXMOBILE!

THE VOXMOBILE — the fastest guitar in the country! You are looking at a dream car that not only travels 175 mph but also turns on! An entire rock 'n roll band can plug in to this vehicle and play through its amplifiers. There is a dual manual continental organ mounted in the rear deck. Also, there are 32 guitar jack inputs all around the car, allowing musicians to play on every side for a 360-degree happening! Hidden in the framework of the car are five 12" speakers and tweeters, an 18" bass speaker, and two main driver speakers. The total power output is rated close to 1000 peak watts! Sound balances are controlled from the dashboard. The high performance 289 cu. in. Ford Cobra engine delivers the power to the rear wheels through a special transmission. The VOXMOBILE is headed for stardom! It is appearing on national TV shows, in motion pictures, automobile shows and teenage fairs across the country! Look for it in your city!
