

ADD extra PUNCH TO YOUR Bass Line!

It's easy—with this new Wersi bass/mini-synthesizer! Wersi advanced electronics delivers a pure bass guitar sound. Powerful. To the point. And full of character!

Manual and automatic up/down, octave glide, variable attack and sustain, free-running wah-wah add extra capabilities. Synthesized woodwinds or brass lend extra distinction. Built-in three octave keyboard can be remotely controlled from external keyboards or pedals.

Write today for *free* detailed information on this new Bassie synthesizer! Or, send two dollars for your 104-page catalog on the complete line of professional Wersi keyboard systems. Wersi Electronics, Dept. K2, Box 5318, Lancaster, PA 17604.
