

The new advanced-design GS1 and GS2 FM digital keyboards.

THE FM STANDS FOR THE FUTURE OF MUSIC.

Introducing a new era in keyboard synthesis: the extraordinary GS 1 and GS 2 FM digital keyboards. They place at your fingertips unparalleled playability and unequalled sound. The kind of playability and sound that years from now will be years ahead.

There are three key considerations that make the GS 1 and GS 2 unlike any

other keyboard: 1. a philosophy, 2. advanced technology, 3. stunning beauty.

The philosophy that sets us apart is simple: to create keyboards designed for musicians, not computer programmers. Notice the simplicity in the front

panel performance controls. The technology behind all this is not so simple. But it is the key to the GS 1 and 2's vast and realistic sound spectrum. That technology is FM (frequency modulation) digital synthesis.

Briefly, FM digital synthesis enables the GS 1 and GS 2 to precisely recreate the harmonic structure of acoustically produced sounds, as well as many other sounds, by generating a brilliant range of harmonics "all at once." And all without the tedious and expensive drawbacks of other digital synthesizers.

Complex as the technology may be, tapping it is a cinch. Both models come with a Voice Library—a book filled with magnetic strips on which Yamaha has digitally stored a vast collection of sounds. Just insert the voice card into the slot and touch one of the 16 memory location buttons.

We will continually expand the Voice Library so you can continually explore new worlds of musical expression.

Further expression is

right at your fingertips with the world-renowned Yamaha velocity- and pressure-sensitive keyboard on the GS 1 and the velocity-sensitive keyboard on the GS 2.

Lastly, the unique beauty of these remarkable instruments puts them in a class by themselves.

The GS 1's especially rich wood and strikingly harmonious design are but a hint of the beauty that lies within.

Lay your hands on the future of sound that only the GS 1 and GS 2 can bring you today. Only from Yamaha.
